

“a home from home environment for every child”

The aim of The Hospital Day Nursery is to provide a home-from-home environment for every child, working together with the parent/carer to develop the individual needs of their child. We welcome every child into a happy, stable, safe and secure environment. The nursery encourages positive relationships between staff and parents/carers to ensure the nursery provides the best possible care for their child. We wish to give parents/carers confidence in us and the work that we do.

The Hospital Day Nursery is an independant day nursery situated in the grounds of Queen Mary's Hospital in Sidcup. The nursery along with the excellent gardens, provide ideal space and facilities for a happy and safe learning environment.

The Hospital Day Nursery was set up by Natasha in April 2004. Natasha has lots of valuable and varied experience in working with children. Natasha qualified when she was eighteen years old and now has many year's experience working in the childcare industry. Natasha started a family in 2006 and now has three lovely boys of her own.

Natasha oversees the running of the nursery and has a fantastic manager in place who organises the nursery on a day to day basis. Natasha and the Nursery Manager have an excellent team behind them, who together provides professional quality childcare for children aged 3 months-5 years.

The nursery is registered and inspected by Ofsted. Ofsted reports can be found on the Ofsted website: www.ofsted.gov.uk.
